BROOKLYN OFFICE

In the Name of Allah Most Gracious Most Merciful

To Magistrate Judge Robert M. Levy

I was pleased to find out, as I have done during our latest court session, that I am able to control or effect my legal proceedings through the communication of a letter. Although I am not pleased to find out that I was never informed by my lawyers that I had this ability available as a tool for me if I wished to use it.

That being said (or written) I wish to ask the Judge that my motions, which I have submitted previously, that they be revoked.

Time in prison and the study of my religion which is Islam has led me to the conclusion that I do not wish to participate or cooperate in the so-called "justice system". The reasoning that has led me to this conclusion is such:

The United States' Religion of Secularism and Democracy is an idol set up and worshipped (recognized as a governing and legislative entity) in opposition to Allah the Exalted and Most High, to whom alone belongs legislation and the only recognizable authority for the Muslims, who will execute our Lord's legislation and judge only by what He has revealed.

So recognizing the fabricated authority of a rival to our Lord the Creator is the highest Injustice.

Therefore I refuse to recognize the supposed authority of the United States and its institutions which include the Department of Justice (or I should say Department of Injustice) and their Judicial Courts (or I should say Prejudicial court).

Then I will unwillingly participate if I am forced to defend myself from what I see as an unjust accusation by an unjust government in an unjust trial and only Allah the Exalted and Most High is my Protector

May Allah guide you to the best path
